R.L. 2000. Half the project work may be considered to have been completed.

(*g*) Irrigated land will certainly yield better and more assured crops than uncertain dry lands; and the lands below are fertile. This project is helpful to drought stricken area.

(*h*) This does not seem necessary.

Co-operative and Collective Farms in the State and their working.

*Q.—76. **Sri H SIDDAVEERAPPA** (Chitaldrug District—General).—

Will the Government be pleased to state:—

(*a*) how many co-operative and collective, if any, farms are started in the State from the last three years, *i.e.*, from 1948–49 up-to-date;

(*b*) where those farms are located; the total average expected to be brought under the plough and the area in each farm which is actually cultivated;

(*c*) the quantum of crop raised in each farm every year;

(*d*) the total amount spent so far by the Government towards each farm; (figures may kindly be given);

(*e*) how many share-holders there are in each co-operative farm and what is the subscribed share capital, if any, in each farm;

(*f*) who is the Officer or Head of Department who is in charge of these farms?

A.—**The Hon'ble Sri T. MARIAPPA** (Home Minister).—

(*a*) Twelve.

(*b*) A copy of statement (No. 1) is appended below.

(*c*) The Belagumba Grow More Co-operative Society was the only Society which cultivated lands during the year 1949–50. The following crops were grown:—

	Pallas.	*Seers.*
Paddy ...	13	28
Ragi ...	102	36
Horsegram ...	2	32
Groundnuts and Pulses.	9	70

In the other Co-operative Farming Societies, the cropping operations have commenced only during the current year and the condition of the crop is reported to be good.

(*d*) and (*e*) A copy of statement is appended below (Nos. 2 and 3).

(*f*) In respect of Government sponsored Farming Societies, the Agricultural Inspector who is the *ex-officio* Secretary, is in immediate charge under the guidance of the concerned Sub-Division Officer and Deputy Commissioner and the Registrar of Co-operative Societies.
